⁴ AAFTE (Average Annual Full-time Equivalent) is calculated as (fall enrollment + winter enrollment)/2. It is used for internal reports for enrollment and budgetary planning purposes. The AAFTE for 2005-2006 will be available in 2006.

⁵ Headcounts for winter term 2006, short term 2006 and AAFTE 2005-2006 will be available in 2006. Winter term enrollment is typically lower than fall term enrollment because of study abroad programs.

⁶ Class is determined by anticipated degree date. All students are considered to be full-time.

⁷ The class of 2009 includes the first-time first-year entering cohort as well as any other student with an anticipated degree date of 2009 (i.e., transfers). There are 490 students in the first-time first-year entering cohort for the fall of 2005.

⁸ Includes non-resident alien's nation, dual citizen's nation, permanent resident's nation and U.S. citizens living abroad.

⁹ Includes nation for non-resident aliens and dual citizens.

Other Programs

Double Majors

The double major required completion of all major requirements, including the comprehensive examination and/or the thesis, in two academic departments or programs.

Individual Interdisciplinary Major

Students may propose an individual interdisciplinary major should that student discover a well-defined intellectual interest that crosses one or more of the boundaries of the established fields of concentration. An interdisciplinary major involves a detailed program of study with courses drawn from at least two departments, but only one senior thesis and/or comprehensive examination.

Liberal Arts-Engineering Dual Degree Program

After three years of full-time study at Bates, qualified students may enroll in a two-year engineering program at Columbia University, Dartmouth College, Rensselaer Polytechnic Institute, Case Western Reserve University, or Washington University in St. Louis. Upon completion of this five-year program, students receive both an undergraduate degree in engineering from Bates College and a bachelor of science from the engineering-school affiliate.

¹⁷ There are 24 department majors, eight interdisciplinary program majors, and 24 secondary concentrations.
