⁴ AAFTE (Average Annual Full-time Equivalent) is calculated as (fall enrollment + winter enrollment)/2. It is used for internal reports for enrollment and budgetary planning purposes.

⁵ Headcounts for winter term 2007, short term 2007 and AAFTE 2006-2007 will be available in 2007. Winter term enrollment is typically lower than fall term enrollment because of study abroad programs.

⁶ Class is determined by anticipated degree date. All students are considered to be full-time.

⁷ The class of 2010 includes the first-time first-year entering cohort as well as any other student with an anticipated degree date of 2010 (i.e., transfers). There are 492 students in the first-time first-year entering cohort for the fall of 2006.

⁸ Includes non-resident alien's legal nation, dual citizen's legal nation, permanent resident's legal nation and U.S. citizens living abroad.

Double Majors

The double major required completion of all major requirements, including the comprehensive examination and/or the thesis, in two academic departments or programs.

Individual Interdisciplinary Major

Students may propose an individual interdisciplinary major should that student discover a well-defined intellectual interest that crosses one or more of the boundaries of the established fields of concentration. An interdisciplinary major involves a detailed program of study with courses drawn from at least two departments, but only one senior thesis and/or comprehensive examination.

Liberal Arts-Engineering Dual Degree Program

After three years of full-time study at Bates, qualified students may enroll in a two-year engineering program at Columbia University, Dartmouth College, Rensselaer Polytechnic Institute, Case Western Reserve University, or Washington University in St. Louis. Upon completion of this five-year program, students receive both an undergraduate degree in engineering from Bates College and a bachelor of science from the engineering-school affiliate.
