GREETINGS FROM THE BATES PARENTS & FAMILY ASSOCIATION

Office hours:
Monday through Friday,
8 a.m. to 4:30 p.m.
207-786-6336
parents@bates.edu

Dear Bates Parents and Families,

As the new chairs of the Bates Parents & Family Association and veteran Bates parents, it is our pleasure to welcome you to the start of the 2003-04 academic year. We present you with the sixth edition of the Parents and Family Handbook and hope that you find it helpful in becoming more familiar with Bates College. This guide offers information on policies and practices for academic, extracurricular, and residential student life. In addition, you can use it as a resource for information on travel, future events, helpful tips, and volunteer opportunities.

The Bates Parents & Family Association, whose membership includes all parents and guardians of Bates students, serves as a liaison between parents and the College to facilitate greater parent communication and opportunity for involvement. We are pleased that this association has grown to more than two hundred enthusiastic parent volunteers. The association is responsible for producing the Parents and Family Handbook and The Family Connection Newsletters, hosting Parents and Families Weekend (this year Oct. 31-Nov. 2), supporting the Parents Fund, welcoming incoming Bates families with phone calls as well as hosting regional receptions, and promoting student intern and graduate career opportunities.

Participation in volunteer programs such as Parents in Admissions, Parents in Career Services, Welcome and Events Committee, Communications Committee, and the Parents Fund Committee is open to all parents. For more information about these programs or to get involved, please contact Marianne Nolan Cowan in the Parents & Family Association Office at 207-786-6336 or e-mail her at parents@bates.edu. We highly recommend volunteering for Bates as a wonderful way to help the College and to learn more about it! Don’t forget to check out the gateway for parents on the Bates Web site at www.bates.edu/for-parents.xml.

Our best wishes to you and your family for a wonderful year! We look forward to meeting you sometime on campus this fall.

Sincerely,

Catherine and Henry Roberts, Chairs
Parents of Sarah ’00 and Andrew ’04
Greetings
August 2003

Dear Bates Parents and Families,

It is our great pleasure to welcome you to the Bates community. For many years parents and families have strengthened this institution by their involvement in programs and events. We appreciate all that you have done and will do to help sustain our educational mission.

Our goal is to nourish the intellectual and personal development of individual students in an academic and residential community that fosters collaboration, collegiality, and friendship. Students are asked to focus on their own academic performance and personal growth without forgetting obligations to the people they live with and the world outside the College. We expect Bates students to lead principled lives, to follow rules and meet deadlines, and to be accountable for their behavior. And we expect them to take initiative as well as responsibility. Even as we ask them to expand their horizons and go beyond perceived limits, we encourage them to test and question us in turn.

In these pages that follow, you will find information about the College, about important student policies and practices, about people and programs that will support your sons and daughters. You will also learn about events we hope you will be able to attend and ways of staying in touch.

We welcome your questions, suggestions, and comments. Inquiries regarding material in this handbook may be directed to the Office of the Dean of Students or to the Office of the Parents & Family Association. Any College office welcomes other inquiries; a directory of campus offices is listed on the following pages.

Thank you for the confidence you have placed in Bates. We look forward to getting to know you.

Regards,

Elaine Tuttle Hansen  F. Celeste Branham

### 2003

| August    | 1 | Fall charge due            |
| October   | 15-19 | Fall recess                |
| November  | 1-7 | Preregistration for winter semester |
| December  | 1 | Winter charge due           |
|           | 5 | Classes end, fall semester  |
|           | 9 | Final examinations begin    |
|           | 13 | Final examinations end      |

### 2004

| January   | 12 | Classes begin, winter semester |
| March     | 5 | Last day for withdrawal from winter semester courses |
| March     | 6 | Preregistration for fall semester |
| March     | 12 | Last day to request study in an off-campus program, including all study abroad, for the next academic year |
| April     | 9 | Classes end, winter semester  |
| April     | 13 | Final examinations begin      |
| April     | 17 | Final examinations end        |
| April     | 26 | Classes begin, Short Term    |
| May       | 28 | Classes end, Short Term      |
| June      | 11-13 | Reunion Weekend             |

* Students must preregister unless currently on a Bates-approved program or approved leave. Late registrants are subject to late fees and must petition the Committee on Academic Standing to request late registration approval.
WELCOME TO THE BATES PARENTS & FAMILY ASSOCIATION

All parents and guardians of current Bates students are considered members of the Bates College Parents & Family Association (BPFA) and are invited to volunteer to be part of its activities. The Association includes volunteer programs in the offices of Development, Admissions, and Career Services. It facilitates greater and more open communication between parents and families and the College. For more information about any of the programs described below, please call Marianne Nolan Cowan ’92 in the Parents & Family Association Office at 207-786-6336 or e-mail parents@bates.edu.

Bates Parents Fund Committee

The Bates Parents Fund is an annual fundraising effort conducted by the College during each fiscal year (July 1-June 30). It is a critical component of the overall Bates Fund, which raises annual unrestricted dollars from alumni, parents, friends, corporations, and foundations in support of Bates’ educational programs. These unrestricted gifts help provide the College with flexibility to respond to the areas of greatest need in order to enhance the overall educational experience for students over the course of each year. Contributions to the Parents Fund help the College to meet current expenses for the essentials that make a Bates education one of the best in the nation.

The role of the Parents Fund Committee is to help increase the funds raised each year by providing philanthropic leadership and fostering supportive relationships between the College and parents. Committee members focus on personally contacting current and past parents as well as grandparents throughout the fiscal year to help the College gain their vital support. The BPFA Office provides all the necessary materials and assistance to the nearly 40 families currently involved. Volunteers for the 2002-03 Bates Parents Fund (BPF) helped raise more than $619,000 from 1,550 Bates families.

Co-chairs for the 2003-04 Bates Parent Fund Committee are David and Eileen Laconi P’05 and Tom and Esther Hearn P’04.

Parents & Family Association volunteers come from around the nation and the world.
Communications Committee
The Communications Committee was established to help the BPFA Office enhance parent publications and materials from the College. Committee members review such publications as the Parents and Family Handbook, the Family Connection newsletter, and the parent gateway on the Bates Web site. Their feedback is also solicited for pieces in Philanthropy at Bates and the Bates Magazine. Much of this committee's collaborative work is done via conference call and e-mail. Chair for the 2003-04 Communications Committee is Vicky Schippers P’04.

Welcome and Events Committee
Becoming a member of the popular Bates Welcome and Events Committee provides assistance with several important volunteer programs while enabling you to meet new families and have some fun! Veteran Bates parents make phone calls welcoming families of incoming first-year students to the Bates community. These committee members answer questions and provide helpful tips. The BPFA Office provides call sheets, matching volunteers to new families in their geographic area whenever possible. Some committee members may even host a regional “send-off” picnic for new and current families during the summer months. This year, volunteers welcomed nearly 500 families — you may have been one of them! The chair of the 2003-04 Welcome Committee is Linda Dodd P’04.

Welcome Committee work also includes parent involvement in special events held on campus such as Orientation and Parents and Families Weekend. Parent volunteers and their students may enjoy staffing a welcome table to answer questions, educate, and even recruit new parent volunteers. Chairs for 2003-04 Orientation Weekend are Bob and Mary Everett P’05. Chairs for 2003-04 Parents and Families Weekend are Jim and Terry Byrnes P’05.

Additional Programs
Many Bates parents and alumni participate in volunteer programs through the offices of Admissions and Career Services. Volunteers from across the country work with Admissions by representing Bates at local college fairs and by hosting regional receptions for prospective students. Or they may become part of the Career Advisory Network, forwarding employment and entry-level job information to the College, or sponsoring an intern in their place of employment. Participation in career discussion panels is also welcomed.

If interested in volunteering for any of these programs, please contact the offices of Admissions (207-786-6000) and Career Services (207-786-6232) directly or call the BPFA Office.
Staying Connected

EVENTS

Bates looks forward to seeing you on campus throughout the year, and invites you to visit the College anytime. Some special events that you will enjoy:

**New Student Orientation (August 30, 2003)**
The schedule includes events, seminars, and activities to welcome you and your student to campus and to make the process of moving your student to Bates as easy and informative as possible. Students also have an opportunity to set up a bank account and apply for on-campus jobs at this time.

**Parents and Families Weekend (October 31 - November 2, 2003)**
Parents and families arrive on campus for this weekend at one of the loveliest times of the year. Held each fall, the College plans a broad array of activities and events. Parents can sit in on classes, attend concerts, theater performances, and sporting events, and enjoy time with their families amid the colorful foliage. Invitations are mailed in September, and a schedule of events will be posted on the Bates Web site at www.bates.edu.

**Commencement**
This is a very important time in the lives of graduating students and their families. The setting is beautiful as the campus grounds are in bloom. The College is bustling with activities, including Baccalaureate, receptions, the senior formal, and Commencement exercises, all of which capture the historical, ceremonial, and traditional elements of this memorable weekend.

Parents receive invitations to Commencement in April. Students may pick up additional invitations on campus before Short Term begins. No tickets are required for any part of the weekend, and families and guests are most welcome. An updated schedule of weekend events is posted on the College Web site each spring.

**Commencement dates are:**
Class of 2004
Monday, May 31, 2004

Class of 2005
Monday, May 30, 2005

Class of 2006
Monday, May 29, 2006

Class of 2007
Monday, May 28, 2007

**Bates Ivy Stones**
Honoring the graduating class, the tradition of placing ivy stones on campus buildings dates back more than a century. The annual ceremony follows the Baccalaureate service on Commencement weekend.

“There is a genuine sense of welcome and effort by senior staff to make parents feel that they are valued partners within the Bates College community. One result is a loyalty to the college which rivals that of my loyalty to my own alma mater — not only is Bates my daughter’s college — it is mine too.”

Bob Everett
Parent, Class of 2005
VISIT TIPS

Here are some tips to help you be as prepared and as comfortable as possible when you come to visit campus and/or tour the state:

• Make reservations for dining and overnight accommodations as early as you can. Local lodging and restaurants fill up very quickly, particularly during Parents and Families and Commencement weekends.
• For listings of local restaurants and overnight accommodations, visit www.androscoggincounty.com, www.freeportusa.com, www.visitportland.com, or contact the Androscoggin County and Greater Portland chambers of commerce. Some popular establishments are listed here.
• Keep in mind the saying of longtime Mainers, “If you don’t like the weather here, wait five minutes. It’s sure to change.” Link to today’s local weather, and a four-day forecast for the region, by visiting www.bates.edu/now.xml so that you’ll be prepared.
• For parents of first-year students traveling to campus for New Student Orientation, keep in mind that early September days can be warm and even muggy, but the evenings cool. Packing some lighter-weight clothing for daytime and something more substantial for evening would be wise.
• The same is true in May during Commencement, whereas the weather during Parents and Families Weekend in early fall can be brisk. Be sure to bring a sweater, light coat, and long pants.
• Winter travel to campus is made most easy and comfortable by traveling via the Maine Turnpike. Travelers can follow this well-maintained stretch of highway from Maine’s southern border right to Lewiston. As with travel anywhere in inclement weather, take the appropriate precautions to make sure that you reach your destination safely.
• For travel conditions along the Maine Turnpike call ahead to 207-871-7740. From the road, tune into AM-1610 for regular travel updates along the way.
• Directions to campus: Northbound travelers should take Exit 13 and turn left onto Alfred A. Plourde Parkway at the stop sign at the end of the off ramp. Southbound travelers also take Exit 13, but bear right onto Plourde Parkway. Continue on Plourde straight to stoplight at intersection of Plourde and Pleasant; continue on Plourde .6 miles to stoplight at Webster Street. Turn left onto Webster and travel 1 mile to stoplight at Farwell Street. Turn right onto Farwell and follow .6 miles to stoplight. Continue straight across intersection onto Russell Street. Russell Street forms the northeast border of campus.
• Here are phone numbers for transportation to and from the local airports:

Mermaid Transportation 800-696-2463
Concord Trailways 800-639-3317
Greyhound Bus Lines 207-782-0311
Excalibur Limousine 800-317-8256

DINING AND SHOPPING

In addition to local restaurants and shops in the Lewiston-Auburn area, the city of Portland lies roughly 45 minutes from campus. The Old Port district is a vibrant center where visitors may enjoy fine restaurants, eclectic shops, and a working waterfront. Freeport, home of legendary retailer L.L. Bean, is just 25 minutes from campus and offers a variety of dining and shopping possibilities. Popular area restaurants and shops are noted here:

CAMPU S EVENTS

For dates, times, and locations of campus events, please visit our Web site at www.bates.edu-now.xml. Here you will find complete listings of musical and theatrical performances, artistic exhibitions, and athletic competitions.

THE GREAT OUTDOORS

The state of Maine is famous for its natural beauty and myriad opportunities for outdoor exploration and recreation. The general area around the College offers much to do and see. Some local favorites include the Range Pond, Bradbury Mountain, Popham Beach, and Reid State Parks, as well as Lost Valley skiing, and the Thorne Craig Bird Sanctuary. Visit www.visitmaine.com to find detailed information about what’s happening in Maine’s state parks, along the coast, and in the mountains.

RELIGIOUS WORSHIP

The Bates community and the Lewiston-Auburn area offer many opportunities for worship, prayer, and reflection. Local places of worship represent a larger number of faith traditions. Advent Christian • Assemblies of God • Baptist • Church of the Brethren • Church of God • Congregational/United Church of Christ • Episcopal • Greek Orthodox • Dependent Fundamentalist • Jehovah’s Witness • Jewish • Lutheran • Methodist • Nazarene • Nondenominational • Pentecostal • Presbyterian • Quaker • Roman Catholic • Seventh Day Adventist • Unitarian-Universalist.

For specific information about locations, addresses, and times of services, or if your faith tradition is not represented, please contact the Office of the College Chaplain at 207-786-8272 or visit the Bates Web site at www.bates.edu/admin/offices/chaplain.

REACHING YOUR STUDENT

Telephone

Bates’ central switchboard — the concierge — can be reached 24 hours a day at 207-786-6255. The phone number of the Office of Security and Campus Safety is 207-786-6254, or, in an emergency, 207-786-6111. The phone number of the Office of the Dean of Students is 207-786-6222.

Bates has contracted with AT&T and Student Telephone Services to provide 1+ long-distance service for phones in each residence hall room. There is no service charge or additional connection fee for this service; students pay only for the long-distance calls made. Local and campus calls are without charge. Monthly itemized statements are mailed directly home or to the student box on campus. If your student chooses not to participate in the program, they may still utilize a personal calling card from their phone, but will not be able to make a direct 1+ long-distance call. For everyone who chooses to sign up, the calling-card option still will be available. You can reach your student by simply dialing 1+207 (Maine’s area code, if calling from out of state or out...
of the local calling area), then his or her assigned seven-digit phone number. Calls made on campus, from one office or dorm room to another, require only the last four digits.

For international callers, please dial your local international access code number, then 1+207, then your student's assigned seven-digit phone number or the number for the department that you are trying to reach. Student phones allow incoming and outgoing local and long distance calls.

Postal Mail
Every student, whether living on or off campus, is assigned a mailbox number at the College. The Campus Post Office is open Monday through Friday from 8 a.m. to 4:30 p.m. and Saturdays from 10 a.m. to 12 noon. All mail or packages weighing less than 5 pounds delivered by the U.S. Postal Service or package-delivery services (such as UPS or Federal Express) should be addressed as follows:

[Student's Name]
Box [Student's Number], Bates College
56 Campus Ave.
Lewiston, ME 04240-6094

Larger packages (more than 5 pounds, but please limit each box to 70 pounds) are received at the Physical Plant Office open weekdays, Monday through Friday, from 7 a.m. to 4 p.m. They should be addressed as follows:

[Student's Name and Box Number]
c/o Bates College Physical Plant
147 Russell St.
Lewiston, ME 04240-6050

Overnight mail to students is delivered to the Campus Post Office during the week and to the Security Office on Saturdays.

KEEPING CURRENT

We invite and encourage you to keep up with the College through any of its published and online materials, including the College's award-winning Web site, www.bates.edu. In addition, you can access local Lewiston-Auburn news and information daily by going to the Lewiston Sun Journal Web site at www.sunjournal.com.

Bates Magazine
Our College magazine includes interesting and informative profiles, stories, and columns about and by members of the alumni body, student body, faculty, and administration. All Bates parents receive Bates Magazine and College annual reports.

The Bates Student
The campus newspaper is written, edited, photographed, and designed by students. For subscription information please call 207-795-7494.

Local Bates Clubs
Bates clubs provide a great, fun way to stay in touch with Bates and to participate in interesting and entertaining events in your area. Throughout the year, events include receptions with Bates members of the faculty, President Hansen, or other members of the administration; gatherings with athletic department staff at sporting events; tours of local points of interest; and welcome receptions for incoming students and their parents. Please contact the Parents & Family Association Office for information on Bates Club events near you, 207-786-6336, or by e-mail, parents@bates.edu.

www.bates.edu
Go online to visit our award-winning Web site. It’s your ready source for current information on campus events, sports, admissions, development, the library, and much more.

ACADEMIC LIFE AT BATES

The College believes that its emphasis on the liberal arts and sciences is justified both in sound educational principle and by the test of long experience. Bates is convinced that the broad knowledge and skills achieved in a liberal education give women and men a realistic, complex understanding of their world and prepare them for lives satisfying to themselves and useful to others.

General Education Requirements

Throughout the College's history, its faculty has expected all students to pursue certain common patterns of study as well as to complete a major or concentrated focus of study. The faculty continues to believe that there are areas of knowledge and understanding, modes of appreciation, and kinds of skills that are of general and lasting significance for the intellectual life.

In establishing these General Education requirements, the faculty reflects its conviction that the graduating student should have a critical appreciation of scientific and social scientific knowledge and understanding. It is believed that experience with theories and methods of at least one science and at least one social science leads to awareness of both the importance of such knowledge in the modern world and its limitations. In addition, the faculty is convinced that the graduating student should have an appreciation for the manner in which quantitative techniques can increase one's capacity to describe and analyze the natural and social worlds.

The faculty also believes that the graduating student should understand both the possibilities and the limitations of disciplined study in the humanities and history. Such study permits a critical perspective on the ideas, values, expressions, and experiences that constitute our culture. It also promotes respect for the integrity of thought, judgment, creativity, and tradition beyond twentieth-century America. The faculty also encourages each student to study a foreign language.

The General Education requirements are as follows:

1. At least three courses from the curriculum in biology, chemistry, geology, or physics and astronomy (two of which must complete a “set” as defined by each program in the college catalog);

2. At least three courses from the curriculum in anthropology, economics, education, political science, psychology, or sociology (two of which must complete a “set” as defined by each program in the college catalog);
3. At least one course or unit in which the understanding and use of quantitative techniques are essential to satisfactory performance.

4. At least five courses from the curriculum of at least three of the following fields in the humanities and history: art, classics, classical and medieval studies, Chinese, English, French, German, Greek, history, Japanese, Latin, music, philosophy, religion, Russian, Spanish, theater, and rhetoric. A department — or program — designated Short Term unit may serve as an option for the fifth course.

Graduation Requirements/Honors/Thesis

The degree requirements may vary slightly for different classes, as well as for three-year students. Four-year degree candidates must meet the requirement of 32 courses, 64 quality points, and two Short Term units. For no extra cost, students may attend a third Short Term unit. Three-year students must complete 30 courses, 60 quality points, and three Short Term units.

You may wish to join us in reminding students that it is ultimately their responsibility to be sure that all requirements for the baccalaureate degree are met at the appropriate time. They may do so by developing a strong and consistent relationship with their academic advisors. We all seek to avoid last-minute surprises. Students must complete all major, general education, and degree requirements (including P.E. activity credits) in order to participate in the Commencement ceremony.

We are quite proud of our Honors Program, which gives qualified students an opportunity to do extensive independent study and research in their major fields. Honors are awarded for special distinction in the major fields. Honors study is usually carried on throughout senior year under the guidance of a faculty advisor. Students normally enter the program at the end of the junior year. Students who wish to be nominated to the Honors Program should apply to the chair of their major departments or programs.

The Honors Program consists of the writing of a substantial thesis and an oral examination on the thesis and the major field. Some departments require a written comprehensive examination as well. In an alternative offered by some departments, eligible students elect a program consisting of a performance or a project in the creative arts; a written statement on the project, if requested by the department; a written comprehensive examination, if requested by the department; and an oral examination on the project and on courses in the major. The oral examination
committee includes the thesis advisor, members of the major department, at least one faculty member not a member of the major department, and an examiner from another college or university who specializes in the field of study.

**GRADES**

When your student receive grades for the first time, everyone is interested to know what they represent. Grades in completed courses are assigned according to the following schedule of letters and quality point equivalents:

- **A+** = 4.0
- **A** = 4.0
- **A-** = 3.7
- **B+** = 3.3
- **B** = 3.0
- **B-** = 2.7
- **C** = 2.3
- **C** = 2.0
- **C-** = 1.7
- **D+** = 1.3
- **D** = 1.0
- **D-** = 0.7
- **F** = 0
- **P** = 2

A student’s semester ratio is computed by dividing the total quality points for the semester by the number of courses for which a grade was given. In the case of a senior thesis program carrying a total of two course credits over two semesters, the grade will be designated as “on-going” pending completion of the course. Students may elect to take courses on a pass/fail basis according to the following stipulations:

1. Students may take a total of two Bates courses on a pass/fail basis, with a maximum of one per semester.

2. Students may declare or change a pass/fail option up to the final add day.

3. Students taking a course pass/fail are not identified on class rosters. Faculty members submit letter grades for all students to the Registrar. The Registrar will convert such grades to a pass or fail. Unless a student wishes to inform the instructor, only the student, the Registrar, and the student’s advisor know the grading mode for a course.

4. Departments and programs decide whether courses taken pass/fail can be used to satisfy major or secondary concentration requirements.
5. Courses taken pass/fail do not affect the student's GPA and do not count towards general-education requirements. A pass is equivalent to two quality points. Pass grades may not be changed if the student later wishes to use the course to meet general education requirements, nor may a student change a letter grade to a pass grade, or vice versa, to affect their academic requirement.

Physical education activity courses, which carry no course credits, are not graded. Grades for Short Term units appear on the transcript but do not contribute to quality points and are not computed in the cumulative ratio.

Grades of S (satisfactory) and U (unsatisfactory) may be used in Short Term units at the discretion of the instructor, provided this policy of grading is announced at registration time. There are three levels of general honors, based upon accumulative grade point average: cum laude, magna cum laude, and summa cum laude. For the classes of 2004, general honors are calculated as follows: cum laude goes to those with a GPA of 3.4 to less than 3.6; magna cum laude, 3.6 to less than 3.8; summa cum laude, 3.8 or higher.

Beginning with the Class of 2005, general honors are calculated as follows: By the start of each academic year, the registrar computes the minimum cumulative grade-point average necessary for students to rank in the top 2 percent, 8 percent, and 15 percent of the combined last three graduating classes. These levels then serve as the minimum GPAs necessary to be granted a degree cum laude (highest 15 percent), magna cum laude (highest 8 percent), and summa cum laude (highest 2 percent).

Students may access their final grades online at a date announced each semester, approximately 10 days after the last day of final examinations. Grades are not mailed to parents and students; however, students are encouraged to either provide parents with their PIN number so that they may view the grades online, or print a paper copy of the grades from the Web. A student or parent may contact the Office of the Registrar and Student Financial Services at the end of the semester if they need the office to provide a paper copy of the grades or an official transcript. Parents may only request grades if the student has granted them permission to receive information from their educational record. This is a requirement of FERPA, the federal student records law. All students, upon entering the college, are provided with a guarantor/FERPA release form which is kept on file and, if the parent is named as eligible to receive information from the student’s educational record, the grades may be provided.
FERPA

The Family Educational Rights and Privacy Act of 1974 (FERPA) is a federal law designed to protect the privacy of education records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate and misleading data through informal and formal hearings. Students are notified of these rights in the Student Handbook.

ACADEMIC STANDING

Minimum semester and cumulative grade-point averages (GPA) as established by the faculty determine the academic standing of students. All Bates course grades are included in a student’s GPA, except for Short Term units, and on the transcript. However, for the purpose of determining academic standing within the College (good standing, probation, dismissal), first-year grades may not be included in the computation if it would be advantageous to the student. Remember that first-year students must maintain a GPA of 1.5 or above and upper-class students a 2.0 in order to remain in good academic standing.

Academic Standing Committee

This committee has these broad responsibilities:
• Recommend policy to the faculty concerning academic standing, probation and dismissal, and related matters of the grading system;
• Hear on appeal individual cases of students placed on probation or dismissed by failure to meet legislated criteria for good academic standing;
• Hear petitions for re-admission from students once academically dismissed;
• Report statistical summaries concerning academic standing to the faculty after the close of the fall and winter semesters;
• In conjunction with the Educational Policy Committee, recommend policy to the faculty concerning registrations and the assignment of credit;
• Hear on appeal individual petitions concerning irregular registrations and credits, including underloads, overloads, late registrations, late withdrawals, rescheduled final examinations, deferred course grades, changes in the course grades, and transferred credits;
• Review the administrative exercise of duties as delegated by the committee to the Dean of Students and the Associate Dean of Students according to faculty legislation. Students may

“We are so proud our son chose Bates over other colleges for the true value of the Bates academic experience goes far beyond the basic tuition. The excellent faculty, administration, students and parents are the value drivers. Their caring attitude towards each other, with education as its anchor, is what distinguishes Bates and enables the College to be ranked in the top 10 academically in the nation.”

David and Eileen Laconi
Parents, Class of 2005
submit petitions to the Academic Standing Committee through the Office of the Dean of Students.

**Dean's List**

Based on semester grade point averages, at the conclusion of each semester, approximately the top 25 percent of the students are named to the Dean's List. To be eligible, students must have completed all course work by the end of the semester and received letter grades in at least three Bates courses. At the start of each academic year, an appropriate GPA level is determined for the inclusion of students on the Dean's List for the ensuing year. This GPA level is computed as the minimum of the top 25 percent of the semester GPAs of all full-time students during the preceding three years.

**Advanced Placement**

Advanced Placement credit is available to Bates students. The individual departments usually decide whether an Advanced Placement examination covers the equivalent of one or two semesters of college work, whether any Advanced Placement credit permits exemption from their particular courses or major requirements, and whether Advanced Placement credits in their discipline shall provide exemption from any General Education requirements. But as a rule of thumb, a student who achieves a score of four or five on an Advanced Placement examination given by the Educational Testing Service is granted two course credits, or one course credit in the case of Advanced Placement courses covering the equivalent of one semester of college work. A limited number of departments award one course credit to students with a score of three on an examination covering the equivalent of two semesters of college work. No credit is granted for a score of three on an examination covering the equivalent of one semester of college work. Similarly, credit is also awarded for high International Baccalaureate exam scores.

**ADVISING**

New students are assigned academic advisors, who hold individual conferences with students during their first week on campus. If students enroll in a first-year seminar, then their professor in this course will serve as advisor. These advisors continue to counsel the student until the major department assumes this responsibility upon the request of the student — no later than the end of the second year. The student and the advisor meet during registration periods and on an informal basis whenever the student seeks advice about the curriculum, course selection, or other academic concerns. While faculty members provide academic advice, final responsibility for course selection rests with the student. The faculty advisor assigned to each first-year student performs the advisory function until it is assumed by the major department. When students are relatively sure of their majors prior to that, they should obtain a major declaration form at the Registrar’s Office. In addition to the faculty advisors, junior advisors, and resident coordinators are available in the residence buildings for academic counseling, and the deans may be consulted as well. As a part of the advisory program, academic-deficiency letters are sent to students by the deans when faculty alert the deans that a student is not performing well in class. Students are encouraged to discuss deficiency reports with their faculty advisor, instructors, and a dean. Parents are not informed of academic-deficiency reports.
Pre-Professional Advising
Responsibility for graduate-study and professional-study advising is shared among the members of the student’s major department, special faculty committees, and the Office of Career Services. Each department gives a member of its faculty the responsibility for providing information and counsel in this area. Three standing committees of the faculty also aid in this effort: the Committee on Graduate Study provides general information and supervises the selection process for various graduate fellowships and grants; students planning professional careers in legal and medical areas are aided by the Legal Studies and the Medical Studies committees. Students interested in these fields or in other graduate and professional schools are encouraged to contact these committees and the Office of Career Services’ counseling staff early in their college career so that a curriculum and a series of related internships and work experiences can be planned.

REGISTRATION OVERVIEW

Bates College’s registration system is designed to be quick, easy, and to allow the greatest possible access to courses for all students while maintaining the quality of the classroom experience.

Students register for courses by completing a course selection worksheet, meeting with their advisor to discuss course options, and then entering their course selections into the Garnet Gateway Web-based Student Records Service during pre-registration week.

For courses with no enrollment limits, the only further action for students is to attend the course on the first day it meets in the semester to confirm enrollment. Some courses at Bates are limited in enrollment so that students may use special facilities or to allow for a small interactive classroom environment. For these courses, the system is designed so students have several opportunities to gain entry. A detailed overview of the registration procedures is available at www.bates.edu/Student-Registration-Overview.xml.

SHORT TERM

The spring Short Term provides a unique opportunity for a variety of intensive educational programs both on and off campus that cannot be offered in the regular semesters. These include studies in marine biology on the coast, in art, theater, and music in New York City and Europe, fieldwork in geology, archeology, and the social sciences, laboratory experiments and social service internships. Study abroad has also included such programs as landscape painting and art history in Italy; anthropological study in Bali, Greece, and Jamaica; conservation studies in Ecuador; women and economics in Taiwan; and language, literature, and cultural immersion studies of many nations around the world. A complete list of courses, including Short Term units, can be found in The College Catalog, published each year in hard copy and online at www.bates.edu/catalog.
OFF-CAMPUS STUDY

Students often supplement their Bates experience with additional coursework taken abroad or elsewhere in the United States. Among recent graduates, slightly more than 50 percent have some form of study-abroad experience. Stephen Sawyer, Associate Dean of Students, also serves as director of off-campus study programs and works closely with interested students and the Off-Campus Study Committee.

Off-Campus Short Term Units
These units are led by Bates faculty either elsewhere in the United States or abroad for a portion of the Short Term. The additional costs associated with these units are listed in the registration information. Bates financial aid is available.

Fall Semester Abroad Programs
Developed and led by Bates faculty, these programs include a focus on language training and also include courses taught by the faculty. The Bates comprehensive fee covers all program expenses, including international airfare.

Colby-Bates-Bowdoin Study Abroad Consortium
Bates has joined with its Maine neighbors to sponsor study abroad programs in Quito, London, and Cape Town. These programs are overseen by the faculty of the three institutions and are principally for juniors.

Junior Semester and Year Abroad Programs
The JSA and JYA programs are the most prominent of these opportunities with roughly 50 percent of the junior class participating. Whether study abroad is appropriate for an individual student depends on many issues.

From an academic standpoint, the greatest benefits are generally in language study, when advanced work in the major can be undertaken, or when the study provides exposure to a distinctly different socio-economic and cultural setting. During sophomore year, Dean Sawyer meets with each interested student to review the opportunities and application process. For programs not run by Bates, students pay an administrative fee to Bates ($750 per semester in 2003-04) in addition to the sponsoring College’s program costs. Bates and federal financial aid are available for qualifying families. Key faculty requirements include a 2.5 GPA at the time of application, the equivalent of two years of language study when the host country’s language is taught.
at Bates, Bates approval of the program for the student, and participation in the Off-Campus Study Pre-Registration in March. Off-campus study during the winter semester is limited to help balance fall and winter enrollment levels.

**Transfer Credit from the United States**

Students may transfer up to eight courses toward their Bates degree, including a maximum of two summer-school courses. Individuals who plan to transfer more than two courses back to Bates take an Academic Leave of Absence through the Office of the Dean of Students. These students are not enrolled at Bates and there is no payment to the College, but students must participate in the Off-Campus Study Pre-Registration in March and have each course approved for transfer. More information on this process is provided in a handout available from the Office of the Dean of Students and Registrar and Student Financial Services Office. Once again, winter semester restrictions apply.

**LEAVES OF ABSENCE**

Though we do not expect our students to leave Bates, a leave of absence suspends a student’s enrollment at Bates for a period of time. There are two types of leaves of absence: Academic Leave and Personal Leave. All leaves are initiated with the Dean of Students in Lane Hall and require the completion of an Academic or Personal Leave Approval Form provided by the dean and signed by staff in the Office of the Registrar and Student Financial Services. Typically, leaves are for one or two semesters.

- Students apply for an Academic Leave when they plan to take courses at another college or university during the regular academic year. These students must participate in the Off-Campus Study Pre-Registration held in conjunction with the March registration for fall courses which applies for both semesters of the succeeding year. The number of students who may take an academic leave for just the winter semester is limited and requires additional approval by the Off-Campus Study Committee.

- Personal Leaves are taken for medical or other personal circumstances. In addition, students occasionally take personal leaves to participate in an internship or to pursue other non-academic opportunities. Students contemplating a leave are urged to discuss the idea with their families and their faculty advisor at Bates, as well as with one of the deans.
STUDENT SERVICES AT BATES

The deans of the Office of the Dean of Students are primarily responsible for the welfare of the student body and the provision of a wide range of student services. They are charged with the administration of the faculty advisory system, academic policies and procedures, health services, security, housing, residential and extracurricular matters, new-student orientation, and the Multicultural Center. They also serve on the following faculty committees: Academic Standing, Athletics, Legal Studies, Long-Range Planning, Medical Studies, Off-Campus Study, and Extracurricular Activities, and Residential Life. The deans may be consulted on matters relating to:

- Academic policies, regulations, and requirements; petitions for exceptions to them;
- General counseling on academic and personal matters;
- Minority- and international-student advising;
- Changes in courses, majors, advisors, or basic educational plans;
- Leaves of absence and the College Venture Program (off-campus, career-related employment);
- Withdrawals and transfers;
- Transfer credits;
- Judicial/disciplinary matters;
- Off-campus study programs such as Junior Year Abroad, the Maritime Studies Program at Mystic Seaport, and the Washington Semester Program;
- Interdisciplinary majors;
- Residential life;
- Immigration and naturalization services and documents.

Dean of Students Office members include:

Dean of Students
F. Celeste Branham, 102 Lane Hall
Dean Branham oversees all aspects of the Dean of Students Office and she is principal contact for support of learning-different students and those seeking assistance in meeting academic rules and regulations promulgated by the faculty.

Associate Dean of Students
Director, Off-Campus Study Programs
Stephen W. Sawyer, 110E Lane Hall
Dean Sawyer takes primary responsibility for off-campus studies programs including college exchange, national off-campus study and international study programs. (See description of Off-Campus Study program in the Academic Life section for more information).

Associate Dean of Students
James L. Reese, 101 Lane Hall
In addition to general advising, Dean Reese takes primary responsibility for working with international students.
Associate Dean of Students
**Holly L. Gurney**, 103 Lane Hall

Dean Gurney takes primary responsibility for working with first-year students and the Residential Life staff and programs.

Assistant Dean of Students
**Roland S. Davis**, 103 Lane Hall

Dean Davis takes primary responsibility for Judicial Affairs and working with sophomore students.

Assistant Dean of Students
**Keith M. Tannenbaum**, Student Activities Office, Chase Hall

Dean Tannenbaum is responsible for Student Activities and Student Organizations.

Director of Housing; Alcohol, Tobacco, and other Drug (ATOD) Educator
**Erin Foster Zsiga**, Housing Office, Chase Hall

Erin Foster is responsible for all housing issues and works with Dean Gurney in the areas of residential life and education. She also serves the College as the ATOD educator.

**Accessibility Services**

Construction of Bates College began in 1855, and there are a number of historic older buildings on campus. Not every room in every building is accessible to a person using a wheelchair, but all common and public spaces are. Whenever indicated, classes will be scheduled in accessible spaces, and the Office of the Dean of Students will, when physically feasible, make reasonable changes to residences to accommodate students’ housing desires. Continuous progress is being made in modifying all buildings to make them technically “accessible,” as well as convenient to use.

If your student requires personal attendants, the Student Employment Office can assist her/him in identifying and employing suitable people from either inside or outside the College community.

Please have your student contact the Dean’s Office if they need assistance in constructing tools and/or adapting laboratory apparati, when appropriate, to improve access to the curriculum.

Major service to wheelchairs and orthotic/prosthetic devices can be provided by any of the several businesses in the area.

**Career Services**

The Office of Career Services (OCS) provides a variety of activities to acquaint students and alumni with all aspects of the career-planning process. Working in cooperation with faculty, students, and alumni, the office strives to help students move toward an early and continuous exploration of their career development in the context of a liberal arts college experience. Self-assessment, interest testing, individual conferences, a weekly newsletter, career planning workshops, and group sessions with campus specialists and outside resource consultants are some of the many ways the OCS fosters the development and expansion of career awareness and suggests steps for effective
Student Services - We Are Here to Help

decision making. In addition to maintaining a reference service and coordinating the campus visitation schedules of employment and graduate-school recruiters, the office helps undergraduates invest their summers and other vacation periods in career-exploratory jobs or internships. Besides candidate guides and employer information, the OCS library includes a substantial collection of career planning information.

Chaplain
In addition to serving as coordinator for all campus religious organizations, Kerry Maloney, the College Chaplain, conducts the weekly College Worship Service and is available for personal counseling. Other clergy appointed to serve as associated chaplains include a Roman Catholic chaplain and a Jewish chaplain. All of the chaplains maintain regular office hours.

Representatives of other religious traditions may be contacted through the Chaplain’s Office at 163 Wood St.

College Store
The store stocks textbooks, paperbacks, sundries, clothing, gifts, greeting cards, office and school supplies, and many other items of interest.

Dining Services
Bates Dining Services prides itself on providing a high level of service both at Memorial Commons and at the thousands of campus events it caters each year. The department’s Web site, www.bates.edu/dining, provides a wealth of information about these services, menus, nutrition, and their environmental initiatives.

Students with special dietary needs should contact the Director of Bates Dining Services, Christine Schwartz, at 207-786-6300 or cschwart@bates.edu.

Health Services
The Bates College Health Center tries to involve students actively in health decision making, while recognizing that a student’s health is fundamentally his or her own responsibility.

The Health Center includes out-patient clinics and in-patient facilities where students may stay for illness, observation, or postsurgical recuperation. Nurses are on duty around the clock. Physicians and nurse practitioners hold daily clinics Monday through Friday for general and gynecological health problems and health instruction. Local specialists in many fields, such as psychiatry, gynecology, and urology, cooperate with the Health Center in providing comprehensive care.

Personal counseling and psychological services are also available at the Health Center. Services include consultation, assessment, psychological testing, counseling, psychotherapy, training in relaxation and other techniques for coping with stress, and referral as appropriate. There is no charge for a limited number of appointments with these counselors and psychologists. Health Center services include some basic laboratory tests, general screening, health education, illness care and follow-up, care of
chronic health problems, and counseling. A few basic medications are dispensed, some for free and others at cost. Pamphlets and counseling on many aspects of health are available at the Health Center.

In case of emergency, ambulance transportation to either of the two nearby hospitals can be arranged:
Central Maine Medical Center, 300 Main St., 207-795-0111
St. Mary’s Regional Medical Center, Campus Ave., 207-777-8100

Appointments for the Health Center may be made in person or by calling 207-786-6199. All student contacts with counselors and psychological services are strictly confidential. Student health records are held in strictest confidence and are not divulged to anyone without the student’s permission. Students are urged to notify their parents if they are ill or hospitalized, but unless they so request, or are unconscious, or urgently ill or injured, the Health Center staff will not do this. In addition, caregivers may need to disregard confidentiality temporarily when a person’s behavior threatens his or her well-being or that of others.

If you are concerned at any time about your child’s health, please feel free to call the Health Center for general information. We encourage you to talk directly to your student and share your concerns with him or her.

All students must have comprehensive health insurance coverage. A very basic and limited accident and illness insurance is provided through the College for all registered students. In addition, the College insurer offers extended accident insurance with Major Medical benefits at modest additional cost. This should be purchased if students do not have additional coverage. Information is sent to the students’ families and may also be obtained at the Health Center. All students are to report the company name and policy number of their own extended coverage. In order to be reimbursed by the College’s insurance company, in the case of an accident, students must file a claim within 90 days of the incident and submit any bills to the Health Center.

The Health Sciences Society is a group of students who are interested and specially trained in health issues. They have participated in classes through the Health Center on holistic health assessments, counseling techniques, referral resources, nutrition, eating disorders, stress, contraception, sexually transmitted diseases, sexuality, alcohol, and drugs. They are available to all students as an additional health resource for baseline information and as referral agents.

Students Against Sexual Assault (SASA) is designed to suit the needs of both men and women affected by issues of sexual violence. SASA is wholly dedicated to increasing awareness in order to prevent and respond to sexual assault. It is a treasure chest of literary resources, educational outreach, and continuous support for the Bates College community. Trained by the Sexual Assault Crisis Center in Lewiston, Maine, advocates provide a network of student to student support.

Bates Emergency Medical Services (EMS) is a student-run team of Maine-licensed Emergency Medical Technicians and First Responders. It is an organization approved by Bates College and fully licensed with the state of Maine. Bates EMS has a primary
service area of the greater Bates campus to which crews respond, and a secondary service that responds to wherever they are requested for mutual aid by other public safety agencies in the Lewiston-Auburn area.

**Information and Library Services**

Bates College Information and Library Services (ILS) provides centralized management of the computing, library, archives, telecommunications and media services for the Bates College community. Its computing services include computers, software, and other user resources supported by computing professionals, student assistants, faculty and fellow computer users. The campus network extends to all offices, classrooms and residence hall rooms, and to many common spaces used for study. Computing services are offered to faculty, students, and staff free of charge, with 24-hour access on more than 50 central servers, and to Mac and Windows machines in the public computer areas. There are public computer areas in most academic buildings, and staffed assistance through Help Desk Services in Ladd Library. There are many specialized labs designed to meet the needs of academic disciplines.

On most College computers, programs are available for word processing, spreadsheets, statistics, modeling, and graphics. Text and image scanning is available in selected locations. ILS provides online access to national and international databases; library catalogs at Bates, in Maine, and world-wide; plus electronic mail and specialized programs used in classrooms and for research. Educational use of some systems and databases is also available to the immediate families of faculty and staff where contractual licenses allow.

The ILS Web site provides links to computer vendors who offer Bates-recommended desktop and laptop computers. The Sales department at 110 Russell St. sells printers, peripherals and supplies. ILS also maintains college equipment, manages the campus-wide network, and performs specific repairs for Bates-purchased hardware. Use of computing resources at Bates is governed by the Bates College Computer Use Policy, on the Web at www.bates.edu/ils/policies/computingPolicy.html.

Library services are provided in two locations. The George and Helen Ladd Library is a centralized library serving the research, teaching, and other reading needs of the College. The Edmund S. Muskie Archives and Special Collections Library houses the rare book and manuscript collections, the College Archives, and the archives of Senator Muskie. Ladd Library holds a collection of printed materials (books, periodicals, and scores), recorded materials (audio and video), materials in microform, maps, atlases, and reference works. The Library also manages access to the online journals and databases available at the College, most of which are available anywhere on the campus network, or through a proxy server, to Bates students and faculty throughout
the world. The Library’s online catalog connects users to Maine Info Net, which includes the catalogs of Colby and Bowdoin colleges, the University of Maine system and other Maine libraries. An increasing array of databases is licensed by the State of Maine for statewide use, and access to them is also available on Maine Info Net. The College’s libraries are open to the public, although borrowing privileges for the general public are offered only to people requiring specialized resources not available in other local libraries.

Regulations concerning the use of the collection are available to students at the circulation desk and on the Web. The staff gives help in the use of the automated catalog, interlibrary loans, microform collections, and photocopying. An expert reference staff helps with research projects and finding material for papers, and will aid in the use of electronic databases. Students, faculty and staff are extended reciprocal borrowing privileges at both Bowdoin and Colby colleges and are encouraged to think of these libraries as part of the collections immediately available to them. Bates also provides extensive interlibrary loan services for students and faculty, anticipating that the research needs for senior theses and other advanced projects may often require the resources of specialized collections elsewhere. Reference librarians can help students plan their research so that they can gain access to needed materials in time for them to be useful. The BatesCard is required for borrowing at the circulation desks at Bates, as well as at Bowdoin and Colby.

Students are expected to maintain an atmosphere in the Library appropriate to serious study and research. A variety of study spaces for individuals and groups is available. Disruptive behavior in the Library may result in loss of library privileges. Unpaid fines and lost book charges are added to the student’s College bill.

**Multicultural Center**

The Multicultural Center acknowledges, celebrates, and promotes the diverse cultural experiences that each member of Bates College brings to the community. The center acts as a catalyst for exploring critical issues on campus by initiating discussions about race, class, ethnicity, gender, nationality and sexual orientation, and the historical and current realities that affect understanding of these topics. Both the Multicultural Center and its affiliated student organizations present speakers, workshops, exhibits, seminars, off-campus study experiences, and cultural celebrations. These programs explore and support the intellectual, social, cultural, political, and spiritual development of the entire campus. The center is open to the entire Bates community and the public; however, the center has a unique role with regard to the support of students from marginalized communities and cultures.

**Museum of Art**

The Bates College Museum of Art holds collections focusing on work on paper by 19th- and 20th-century American and European artists, including the cornerstone Marsden Hartley Memorial Collection, which features 99 drawings by the modernist master. Rotating exhibitions in the Upper Gallery feature contemporary artists of regional and national stature (plus the popular Senior Exhibition showcasing works by senior art majors each spring), while Lower Gallery exhibitions are more long term. Bates students stay involved in the museum through internships, access to works for academic study, and opportunities to curate exhibitions.
The museum is now featured on the Maine Art Museum Trail, an innovative collaboration highlighting Maine's premiere art collections at Bates, the Bowdoin College Museum of Art, the Colby Museum of Art, the Farnsworth Art Museum in Rockland, the Ogunquit Museum of American Art, the Portland Museum of Art, and the University of Maine Museum of Art in Orono. For more information on current museum exhibitions at Bates and along the Museum Art Trail, visit www.bates.edu/museum.xml or www.maineartmuseums.org.

Registrar and Student Financial Services
The Registrar and Student Financial Services Office provides information and assistance to students and their families as students progress through their academic careers. We are a combined services unit located in Libbey Forum, providing comprehensive support to the many administrative aspects of college attendance. The department also supports the Garnet Gateway, an online records system that students and parents may access to view academic and financial information in a secure environment. A short service list includes:

- financial aid counseling — answers to both simple questions about aid and comprehensive financial advising are available from experienced aid officers. Personal and secure information about financing may be accessed on the Garnet Gateway.
- student academic progress — we provide degree audits and general academic information regarding degree requirements and academic policies. The Registrar and Associate Registrar are available to meet with students on a variety of academic issues.
- registration — we provide assistance on using our online student records service, the Garnet Gateway, to register for courses and to view a variety of academic information on the web.
- enrollment verifications — many families need this for student health coverage, discounts on student auto insurance, tuition waivers, and the all-important ski pass! We are introducing a new web based self-service enrollment verification request service, available on the Garnet Gateway.
- payment plans and information on account balances — Secure web access is available via the Garnet Gateway and staff are available to provide information on financing a Bates education.

Security and Campus Safety
The Security and Campus Safety Office is located at 245 College St. This office initiates programs and policies that promote the safety and security of all individuals on campus and protect their personal property as well as College property. If safety or security concerns arise regarding individuals or their property, please contact the Security and Campus Safety Office immediately. The College assumes no responsibility for the loss or damage of personal property. Thefts may be reported directly to Security. In the case of a wallet being stolen, a small emergency loan may be accessed through the Dean of Students Office.

Director of Security and Campus Safety Tom Carey can be reached through the Security and Campus Safety Office, 207-786-6254. In emergencies, please call 207-786-6111.
During the 2002-2003 academic year, an electronic access control system was designed for residence halls, residential houses, and selected other buildings on campus. When complete, this system will act as an external door key for buildings where students have authorized access, based both on location and time of day. This system will allow the College much greater control regarding which doors are available for entrance into College buildings, when doors are locked, and who is authorized to enter. Construction of the system is underway with projected completion in Fall 2003 for residence halls and houses. The system will be extended to major academic, athletic, and library buildings in 2003-2004.

Service-Learning
The Center for Service-Learning, located at 163 Wood St., coordinates a program that provides services to the community and enhances learning. Typically rooted in their coursework, the community service students provide is directly related to the theoretical and abstract matters under discussion in the classroom. In a real sense, service-learning becomes a conduit through which the theoretical is connected to the practical.

Service-learning gives form to a partnership between the College and the community. The community gains expertise and service; community partners also do a good amount of teaching. Students learn, and faculty have students in their classrooms with deeper practical understanding. Often, the experiences catalyze faculty research and student interest that lead to career decisions for students and changes in policy for the community. It is empowering for all involved.

“The new friend I have met moved here from Connecticut and her daughter went to Bates! My godmother’s grandson is a 2001 graduate of Bates! Everyone you talk to knows someone who went to Bates and they all have nothing but praise for the institution. It is great to be part of such a positive, upbeat group.”

Terry Byrnes
Parent, Class of 2005

The College also offers a service-learning house, a community school project, summer opportunities and occasions for extra-curricular activity, and ad hoc groups and individuals to engage in service-learning. What distinguishes service-learning from traditional volunteer work is its reflective component — the opportunity to think about the meaning of the experience in a theoretical and abstract frame of reference.

Writing Workshop
The Writing Workshop offers all interested students skilled assistance in writing. Staff members are experienced professional writers trained to provide supportive and insightful instruction. The Writing Workshop offers individual writing conferences, writing assessments, a resource library, handouts, orientation sessions, and small-group workshops. Staff assist students in analyzing assignments, generating and revising drafts, and developing clear, concise prose.
RESIDENTIAL LIFE

The Residential Life Program seeks to create living environments within College residences that are conducive to learning, friendship, and community. Integral to our vision for residential life is our belief that the residential component of a liberal arts education should have a programmatic element that complements and supports the educational mission of the College.

The Office of the Dean of Students is directly responsible for residential life. Resident coordinators work in conjunction with House Councils and the deans for the welfare of the residents in their buildings. Physical maintenance of the residence halls is under the administration of the director of Physical Plant. Individual residence-hall and food-service contracts should be consulted for details of residential regulations.

HOUSING AT BATES

Housing Coordinator
The Housing Coordinator at Bates is the member of the Office of the Dean of Students responsible for maintaining all records for the residence halls and for facilitating many of the processes that students will encounter in their lives as residents at the college. Some of the responsibilities of the housing coordinator include placement of new students, running the housing lottery in the spring, coordinating housing during school breaks, and facilitating the room change process. Living in the residence halls and houses is an important part of life at Bates. The housing coordinator works with all students to try to insure that their Bates experience is as positive and enjoyable as possible. The Housing Office is located in Chase Hall.

Housing Options
On-campus housing is guaranteed for four years. The quality of residence-hall life at Bates is considered an influence on students’ academic achievement and overall personal growth.

There is a wide range of housing options. Eight traditional residence halls house from 40 to 150 students each, and 28 Victorian houses, with rooms for 10 to 30 students each, offer a more homelike atmosphere.

Most rooms on campus house two students, although singles, triples, quads, and suites are available. Some residences are coed, and some are single sex. All first-year
Residential Life - Beyond The Classroom

students have roommates and are clustered in groups of 12 to 16 students in areas designated as First-Year Centers: wings or floors reserved for them and for the upper-class women and men who serve as junior advisors.

The Residential Village combines features of both residence halls and houses. The complex includes three 50-person buildings and the adjacent Benjamin Mays Center, an inviting gathering place with comfortable furniture and a cozy working fireplace. Each student has the option to request a single-sex residence or a mixed residence with open visitation.

Off-campus housing is available each year to a limited number of seniors. These seniors are permitted to move off campus in order to gain the experience of independent living before graduation. Off-campus students can elect to stay on or drop the meal plan.

“Now that our son Scott’s Bates years are over — far too quickly we might add — the word that most comes to mind in describing his time at this wonderful college is "opportunity." Bates gave him the opportunities to learn, to meet people from around the country and the world, to grow as a person, to discover what he liked and did not like, what he was good at and what he was not. We are happy to say he took advantage of those opportunities and as a result: he lived and studied three semesters on two different occasions in one of the world’s most historic and exciting cities, Berlin; he saw places in Europe from Prague to Lisbon to Stockholm; he discovered a love of the theater and performed not only on campus but in Budapest; he developed his own performing style with his show on WRBC-FM, one of the country’s top college radio stations; he lived in the beautiful state of Maine where he skied Sunday River and saw the world from the top of Katahdin; he learned the responsibility of leading first-years on an AESOP wilderness trip in New Hampshire; and above all he learned in the classroom and out.

We were thrilled when Scott was accepted at Bates back in early 1999. We are just as thrilled with the opportunities Bates gave him and for the person it has made him.”

Wayne Partenheimer and Louise Harbach
Parents, Class of 2003
Resident Coordinators/Junior Advisors
Resident coordinators and junior advisors are resident peer advisors who work in conjunction with the Office of the Dean of Students and other College offices. Each first-year student is assigned to a first-year center consisting of 12 to 16 first-year students who live on a hall of a dorm or in a house, along with a junior advisor. Junior advisors are present to help the entering student make the transition from secondary school to college and to integrate into the academic and social life of Bates.

Resident coordinators serve primarily as administrative liaisons for upper-class students living in College residences. Other duties of resident coordinators include programming events, mediating and resolving disputes, and working in conjunction with the Office of the Dean of Students to address issues pertaining to residential life.

Room Assignments/Lottery
Room assignment for new students is an important process. Early in the summer a questionnaire is sent to all new students. This questionnaire contains a variety of questions that help the Housing Office make successful matches for all new students. There are several options available to new students: an all-first-year student residence hall or house; all class years building; a coed building; a substance-free hall or house (no alcohol, tobacco, or other drugs); or a quiet building. New students are asked to rank their preference for each of these options and the Housing Office works to meet as many of these preferences as possible. Due to limited space and high demand for certain housing options, it is difficult to meet the first choice of every entering student.

The College believes that it is an important part of the first-year experience to learn to live with another person. First-year students will not be placed in singles and should look forward to the opportunity to get to know another member of the entering class. Our hope is that the residential experience of each student will be a rewarding part of his or her Bates experience.

Housing for sophomores-, juniors-, and seniors-to-be is determined by a lottery system. The following year’s seniors have first pick, followed by the next year’s juniors, and finally the sophomores. Randomly generated numbers are assigned to each student. Often only juniors and seniors have low enough lottery numbers to procure single rooms. When the student whose number was used to procure the room decides to leave the room, and the remaining members of the room have higher lottery numbers, the occupants of the room may be removed from the room and required to go through summer placement.

Room Changes
We hope that the process of living and negotiating with another new student is successful and rewarding. We also intend for the process to be educational. There is often a need for students to mediate differences, make compromises, and come to a point where they can live together successfully. The junior advisor can play an important role in facilitating this process. Resident coordinators mediate among upper-class students.

There are occasions when roommates think it might be best for them to no longer live together. When a room change is needed, it is important for students to communicate
with the Housing Office. Parents should urge their sons and daughters to work through their rooming issues with their roommates and then to consult the housing coordinator. The Housing Office will maintain a list of all available spaces. If the student is able to facilitate the change by switching with another person, or moving into an open space, the student must nonetheless obtain approval from the Housing Office. If a student has changed rooms without obtaining the appropriate permission, a $200 room charge may be assessed to their account and the student will be required to return to the original room. The Housing Office maintains all records for the residence halls and houses, and maintains an accurate list of where students live.

Patience is a part of the room change process. Students sometimes feel that a situation needs to be handled immediately, and this isn’t always possible. There can be more than one student at any given time that needs to be moved, and the Housing Office must prioritize the needs of each situation. Moreover, the Housing Office will work directly with students and attempt to respond to their concerns when possible. The office moves as quickly as possible to resolve each situation. Parental intervention on the part of any student runs counter to our philosophy that students need to develop problem-solving skills while at Bates and should devise solutions to their concerns independently.

**Dorm Damage**

Students are responsible for any damage caused to their rooms. Damage to common areas is assumed by the person or group responsible for it. Charges for repairs are billed against the whole dorm or floor whenever it is impossible to identify the responsible party. Individual charges in excess of $5 will be billed directly to students every six weeks. Failure to pay may lead to transcripts being withheld and/or disciplinary action. Willful destruction of property will result in disciplinary action. If you have a question regarding your student’s dorm damage charges, please contact David Larrabee in Physical Plant at 207-786-6205 or e-mail dlarrabe@bates.edu.
Residential Life - Beyond The Classroom

Furnishings
Each resident student is furnished with a bed, bookshelf, desk, desk chair, and bureau. Students should bring their own lamps, curtains, blankets, towels, sheets (mattress size is 35 x 80), and pillows. Water beds are not permitted, but lofts may be constructed according to regulations set forth by Physical Plant. At the start of each semester, students can arrange with Physical Plant to add extra furniture to their rooms.

Personal Property Insurance
Although damage to personal property due to fire, flood, or other disaster is not common, such tragedies could occur. In the event of such a mishap, the College would like to ensure that parents and students are aware of the College’s position on such matters, and that families are adequately prepared. In the event that damage should be incurred to personal property, the College will make every effort to assist students in their time of need, but cannot accept any financial burden. The College encourages parents to investigate their homeowner’s insurance to see if the student’s personal belongings are covered. In the event that your policy does not provide coverage in this situation, most companies allow extensions to be made on previous policies. The College recommends that parents have some sort of protection in the unlikely event of such an occurrence.

Banking
Peoples Heritage Bank Account
The College has arranged for every student to have a free regular checking or statement savings account with Peoples Heritage Bank, if they wish to have one. The bank account requires no minimum balance and provides other benefits.

Peoples Heritage Automated Teller Machine (ATM)
An ATM is located in Chase Hall. With a Peoples Heritage Bank account, students may obtain cash from the ATM with no fee. Other bank cards will also work in the ATM, but each transaction will incur fees.

Check Cashing
Personal checks of $200 or less may be cashed by Bates students at the Office of the Registrar and Student Financial Services upon presentation of a valid Bates identification card. An administrative fee of $10 is levied for checks with insufficient funds.

MEAL PLANS
The College’s meal plan provides for three meals a day, Monday through Saturday, and brunch and dinner on Sunday, while Bates is in session. The first meal of each semester is dinner prior to the beginning of classes and the last meal is served following the conclusion of final examinations. Food service is limited during most vacations. All on-campus students are on the meal plan. Off-campus students may purchase meal privileges by the semester at the Financial Office or by the meal at Commons.

The kitchen and dining facilities at Frye Street Union and at other residences are also available on a reserve (“blue-slip”) basis for dinners and assemblies. Most dormitories
and houses also have kitchen facilities. Dining hours for Commons are posted in Chase Hall. Guests may dine at Commons according to the following fee schedule: breakfast, $3.50; lunch, $5.50; dinner, $6.75; brunch, $6.50.

CARS/PARKING

Registration
All student vehicles must be registered with the Security Office and display a College parking permit or a temporary permit. Parking permits are allocated through a lottery system administered by the Representative Assembly, Bates’ student government. Permit fees are $60 per academic year. Visitor permits are free. Vehicles must be insured for $25,000-$50,000 minimum liability and display a valid inspection sticker from the state in which they are registered. Any vehicle parked on Bates College property without a valid registration may be towed and stored at the risk and expense of the owner and/or operator. Junior year students going abroad one or both semesters need to plan ahead by participating in the spring lottery to gain or retain a parking permit when they return.

“As parents of a Bates College student we have attended several college functions and have come to the realization that our daughter has become a member of the Bates extended family. Not only academically and emotionally has our daughter grown, but learning is a wonderful, challenging adventure for her here. The recent reunions held at Bates show the pride and camaraderie between current students and alumni.”

Jim and Linda Simones
Parents, Class of 2006

Parking Violations
Parking tickets are issued if cars are parked in restricted areas. Campus parking privileges are revoked for the academic year after five violations. All tickets must be either paid at the Financial Office or appealed to the Security Office/Parking Appeals Board within seven days. Each violation results in a $10 fine with an additional $10 added if the car is not registered with the college or if the registration has expired.
EXTRACURRICULAR LIFE

The College has more than 90 student organizations, 28 intercollegiate athletic teams, intramural and club sports programs, and a varied fine-arts program. All of these help sustain an exciting and diverse campus life. Most students participate in one or more of the clubs or committees, nearly 60 percent on an intramural or club sport, and one-third of Bates students compete on a varsity team. To further ensure that a balanced social life on campus provides a variety of options for students, Bates has established extensive programming to highlight non-alcoholic social alternatives. This includes sponsorship of the bi-weekly Village Club Series, directed by the Student Activities Office. This is in addition to the regular activities that occur in the Ronj, the student-run coffeehouse on Frye Street, which is open for extended hours on weekday and weekend evenings. The Dean of Students Office and the Department of Athletics have also initiated the Choices program as a vehicle for alcohol education and alternative programming. The Choices program utilizes student athletic leaders as peer educators to challenge alcohol abuse through peer education and an expanded intramural program. The program also selectively markets certain intramural programs to first-year students as an alternative to other unstructured social activities where alcohol may be present.

STUDENT IDENTIFICATION CARDS

A student identification card is provided to each registered student. The card must be shown to gain admission to Commons, athletic events, athletic facilities, and to borrow books from the library. Beginning in the 2003-2004 academic year, the card will also be used for building access. Students must show the identification card to College personnel when requested. Fraudulent use of the card may result in disciplinary action, as well as revocation of privileges without compensation. Replacement cards are issued by the Access Control Office in Chase Hall and a fee is charged for the replacement card.
PERSONAL RESPONSIBILITY AND SOCIAL CONDUCT

Traditionally, Bates has taken pride in the responsibility of its students and the social and educational atmosphere of its campus. We do hold our students responsible for their conduct at all times. Any student who becomes disorderly, is involved in any disturbance, interferes with the rights of others, damages property, brings the name of the College into disrepute, or is individually or as a member of a group involved in unacceptable social behavior on or off campus may be subject to disciplinary action by the Student Conduct Committee.

Academic Misconduct
Academic dishonesty, in whatever form, diminishes the integrity of education at the College. Such conduct is a serious offense, subject to stern disciplinary action. Academic misconduct falls into three categories: plagiarism, cheating, and falsifying results or data.

Social Misconduct
Cases of social misconduct usually fall into one of several general categories. While not exhaustive, the following categories illustrate the expectations of the College expressed in the General Guide for Social Responsibility, and provide examples of misconduct subject to College discipline. Many of these categories, and the accompanying examples, may have a counterpart in the State of Maine Criminal Code. Students and parents must realize that addressing a violation of the College’s code of conduct does not exempt the individual from prosecution by proper authorities under criminal or civil code.

Categories include:
1. Actions against persons;
2. Actions against property;
3. Dangerous or disorderly conduct;
4. Actions against the institution;
5. Obstruction of the College’s judicial or disciplinary procedures.

Alcohol and Drug Abuse Policy
Bates College continues to affirm the value of individual autonomy in making decisions about one’s life, and will continue to make education and consulting its chief strategies for meeting its responsibilities. In accordance with the Drug-Free Schools and Communities Act, the College reaffirms standards of conduct that clearly prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees, on the College’s property or as part of any of its activities.

We will always utilize our counseling resources to help students involved with drugs. The College, however, bears the major responsibility for the welfare of the student body. Therefore, possession, distribution, or the use of illegal drugs and narcotics renders a student liable to disciplinary action, including confiscation of materials and dismissal. Student violations of these policies governing drugs and alcohol are subject to disciplinary actions, which may include referral to counseling, revocation of the privi-
Social Conduct - The Way Life Should Be

In advance of using College facilities for such events if student groups or organizations are involved, and/or referral of individuals to the Student Conduct Committee.

Policy Regarding Sexual Violence
Bates denounces the use of violence directed against any individual or group. We, the College community, regard sexual assault as a violent crime, a particularly heinous form of sexual harassment, whether committed by a stranger or an acquaintance on or off campus. We condemn the commission of sexual assaults and believe persons charged with such offenses should be dealt with promptly and fairly through the courts and our own judicial system. Moreover, we re-dedicate ourselves to eradicating hostile settings in which our ability to work, study, live, and learn together is inhibited. Finally, we pledge assistance through the various departments of the College in aiding survivors of assault to determine how best they may regain control over their circumstances.

Student Conduct Committee
Cases of misconduct that are not resolved by an individual meeting with a dean or mediation and are more serious than can be resolved by a Dean's Review are heard by the Student Conduct Committee (SCC). The dean shall refer all major cases of misconduct to the Student Conduct Committee. A major case of misconduct is any case wherein, in the judgment of the dean, appropriate disciplinary action if taken might involve probation, suspension, or dismissal.

The SCC holds hearings, determines whether or not a violation of College policy has occurred, and assigns appropriate penalties. Students whose misconduct is addressed through an SCC hearing have an opportunity to offer their account of the events in question and can provide the committee with relevant information which might explain the conduct. The committee may also hear from several types of additional witnesses.

The SCC deliberates in closed session to determine whether a violation of College policy has occurred. The committee also decides what penalties are to be imposed. Sanctions which may be imposed by the committee include but are not limited to:
1. Verbal warning;
2. Letter of censure;
3. Exclusion from various College social and/or ceremonial activities;
4. Disciplinary probation;
5. Mandatory referral to a counseling program;
6. Suspension for a designated period of time;
7. Suspension with readmission contingent on proof of counseling or successful completion of a rehabilitation program; and/or
8. Dismissal from the College.

The College reserves the right to involve law enforcement authorities and/or undertake legal proceedings against a student. The official and complete description of the SCC and its guidelines can be found in the Student Handbook.
FINANCING A BATES EDUCATION

All financial aid at Bates is awarded on the basis of need, in accordance with Bates’ need analysis guidelines, and awards are offered which meet the student’s full calculated need.

Bates annually provides more than $13 million in scholarships and grants to eligible students. Approximately 40 percent of enrolled students receive scholarship assistance; during 2001-2002, the average grant was $19,253 and the average financial aid package (including grant, loan, and work) was $22,303.

For students living in New England

Fees and Due Dates

Tuition, room and board charges for all students residing at Bates College are included in one comprehensive fee. For the 2003-2004 academic year, the comprehensive fee is $18,750 per semester. When a student enrolls, he or she incurs a financial obligation to Bates. The total due after subtracting financial aid must be received by the due date each semester. Payments are due on the following dates:

- Registration Deposit (First-year Students) May 1, 2003
- Fall Semester August 1, 2003
- Winter Semester December 1, 2003

Students are required to name a guarantor, a person who is financially responsible for their accounts. Semester bills are mailed in the student’s name to the guarantor several weeks prior to the due date each semester. Students and guarantors may authorize changes to guarantor name and address information through the Office of the Registrar and Student Financial Services.

“Melissa has had greater opportunities at Bates in athletics, leadership positions, career internships, and access to classes and professors than she would have attending a larger school. Thank you, Bates.”

David ’74 and Margaret ’75 Wilcox
Parents, Class of 2003
Money Matters

Payment in full is expected by the due dates for each semester, listed above. If payment is not received, the student may become ineligible to register for classes, receive grades and transcripts, choose campus housing, and graduate. Late fees may be assessed on balances that remain unpaid after the due dates.

Bates offers a monthly payment plan through Tuition Management Systems (TMS). Information is available by phone (800-722-4867) or online at www.afford.com.

Some off-campus Short Term units involve extensive travel, either elsewhere in the United States or abroad. Additional charges are assessed for these units to cover the costs of transportation, facilities, and accommodations required by such programs. All off-campus extra cost Short Term units require a non-refundable $500 deposit.

The non-refundable deposit ($500) is due February 24, 2004. Payment for all additional costs are due March 15, 2004. Please see the Bates Catalog for more information.

Refund Policy
Students who leave Bates during the course of a semester are required to apply in writing and complete a leave of absence form or a withdrawal form through the Office of the Dean of Students. Refunds are issued upon request to the Office of the Registrar and Student Financial Services after a leave or withdrawal has been granted. Students withdrawing on or before the fiftieth day of a full semester receive a prorated refund of the annual charge, as follows: on or before the first day of classes, 100 percent; 2-10 days, 90 percent; 11-20 days, 75 percent; 21-30 days, 50 percent; 31-50 days, 25 percent; no refund after 50 days. In accordance with federal regulations, the first day of the leave or withdrawal is the date indicated by the student on the leave of absence or withdrawal form. If no date is stipulated by the student, the first day of the leave or withdrawal is defined as the last day the student attended any class. Students who withdraw prior to the beginning of either the first or second semester must notify the College by May 14 or November 1, respectively. For information concerning financial aid, payment plans, or paying your bill, please visit our Web site at www.bates.edu/rsfs.xml or contact: Office of the Registrar and Student Financial Services, Libbey Forum, 44 Mountain Avenue, Lewiston, Maine 04240, 207-786-6096, fax: 207-786-8350, e-mail: finoff@bates.edu or finaid@bates.edu.

Student Employment Opportunities on Campus
The Student Employment Office is a student-managed division of the College’s Department of Human Resources. It serves as a resource for both students and employers, as well as a centralized office through which issues concerning student employment are channeled. It also posts off-campus positions, including babysitting and tutoring jobs in the surrounding community, and a variety of work-study opportunities in non-profit or not-for-profit agencies in Maine. The Student Employment Office is located at 215 College Street, and may be reached at 207-786-6303, or via e-mail at seo@bates.edu.
Bates College is a coeducational, nonsectarian, residential college with special commitments to academic rigor and to assuring in all of its efforts the dignity of each individual and access to its programs and opportunities by qualified learners. Bates prizes both the inherent values of a demanding education and the profound usefulness of learning, teaching, and understanding.

Bates was founded 150 years ago by people who believed strongly in freedom, civil rights, and the importance of a higher education for all who could benefit from it. Bates is devoted to undergraduate education in the arts and sciences, and commitment to teaching excellence is central to the College’s mission. The College is recognized for its inclusive social character; there are no fraternities or sororities, and student organizations are open to all.

When founded in 1855, Bates was the first coeducational college in New England, admitting students without regard to race, religion, national origin, or sex. In the mid-19th century, Oren B. Cheney, a Dartmouth graduate and minister of the Freewill Baptist denomination, conceived the idea of founding the Maine State Seminary in Lewiston. Within a few years the seminary became a college, and it was Cheney who obtained financial support from Benjamin E. Bates, the Boston manufacturer for whom the College was named.

Oren B. Cheney is now honored as the founder and first president of the College. He was followed in 1894 by George Colby Chase, who led the young institution through a period of growth in building, endowment, and academic recognition — a growth that continued from 1920 to 1944 under President Clifton Daggett Gray, and through 1966 under President Charles Franklin Phillips. Thomas Hedley Reynolds, the College’s fifth president, brought Bates national attention by developing a superior faculty and innovative academic programs.

Donald W. Harward, Bates’ sixth president, gave service to the College for 13 years from 1989-2002. Under his leadership, the College community has examined the challenges it faces and has planned how it must respond now and in the next century.

Elaine Tuttle Hansen took office as Bates’ seventh president, and its first woman president, July 2002. The author of three books, Hansen is an expert in medieval English literature and in feminist literary theory. Most recently, Hansen served as provost at Haverford College, in Pennsylvania, where her achievements include a strong record of faculty recruiting and the advancement of major new interdisciplinary programs.

Bates has limited its admissions and grown slowly, yet it also has pursued an ambitious program of building and equipment acquisition to support academics and student life. Major dormitory and classroom projects were completed during the last decade, and Bates has recently added several athletic facilities, including new fields, the James Wallach ’64 Tennis Complex, a synthetic turf field, the Underhill Skating Arena, and the Davis Fitness Center. Most recently, an eight-lane, bi-radial track with a 10-lane straightaway was constructed. Bates will have available three new international squash courts for the 2003-2004 season.
